A. C. MUNIRATNAM,
For *Chief Electrical Engineer.*

---

OFFICE OF THE SUPERINTENDENT, POWER AND LIGHT, MYSORE.

*Notification dated 9th August* 1938.

1. Sealed tenders in triplicate will be received at the office of the Superintendent, Power and Lighting, Mysore, superscribed with the name of the work mentioned below.

2. The plans connected with the work may be seen at the Office of the undersigned at all working hours. The copy, if required, will be made available on payment of Rs. 2 per set.

3. The tenders should be drawn up strictly in conformity with the specifications furnished, writing out the rates at which each item of work will be executed in figures as well as in words failing which no cognisance will be taken of the tender. No items other than those noted in the statement should be included as the items cover provision for all sundries, repairs to damaged masonry and painting.

4. The materials to be used on the work should be of best quality conforming to the specification of this department and B. S. or A. I. E. E. specification. Mention should also be made of the manufacture and the catalogue numbers of the materials offered. Teak wood planks to be used on the work should be free from cracks, knots and well seasoned. No planks less than 12" in width will be permitted to be used unless it is to make up the difference in size of the board required. Only the lap joints should be adopted in all cases.

5. The undersigned reserves the right to reject the tenders without assigning any reasons therefor.

6. The successful tenderer will be required to deposit an earnest money of Rs. 60 (Rupees sixty only) and execute an agreement within a week from the date of intimation of acceptance of the tender. He should send samples of all the materials required for the work mounted on a board and start the work after obtaining the approval of the undersigned with regard to the same and carry out the wiring following the rules of this department as well as that of the Institution of Electrical Engineers. He should also be prepared to adopt any change in the location of control points and other outlets that might be suggested by the undersigned during the progress of the work without extra cost if the tender is not materially affected by such deviations.
